Objective

Passionate Computer Science student specializing in Cybersecurity and Cloud Technologies at Rajalakshmi Engineering College, Chennai. Seeking to apply my foundational knowledge in security principles and cloud architecture through practical experience and continuous learning.

Education

B.Tech – Computer Science and Business Systems
Rajalakshmi Engineering College, Chennai
CGPA: 8.55 (Current)
Expected Graduation: 2028

Technical Skills

Programming

- Python (Infosys Certified)
- C Programming
- HTML/CSS

Cybersecurity

- TryHackMe
- Linux
- Burp Suite (Basic)
- Dirb

Cloud & Tools

- AWS IAM (Learning)
- Git & GitHub

Certifications

- **Python Foundation Certification** – Infosys Springboard (June 2025)
  Completed hands-on training in Python fundamentals including variables, control structures, functions, and data structures

- **Deloitte Cybersecurity Virtual Simulation** (July 2025)
  Practical exposure to cybersecurity problem-solving in enterprise environments

Achievements

- **Reliance Foundation Undergraduate Scholar** (2024–2028)
  Selected among top 5,000 students nationwide for academic excellence and innovation potential

Interests

- Cybersecurity labs and Capture The Flag (CTF) challenges
- Cloud infrastructure and serverless architecture
- Exploring AI tools like Gemini & OpenAI APIs
- Open-source security projects
- Network security fundamentals
